I love XM radio, I pay \$9.99 a month to listen to music I WANT to listen to. If I want to listen to country..BAM i have a bunch of choices to choose from...Rock, BAM same thing. I want variety in my music, and with FM radio I clearly do not have that choice. And with the weather and traffic channels, I can get up to the minute weather and traffic conditions to the places I travel to most, which happens to be Tampa. You can't get this any place else, and I feel very dissappointed in the NAB to try to block this wonderful and usefull programming.  
SHAME ON YOU!!!!!!!!!!

Jut goes to show that you do not care about listeners, just about money.
